

ABDUL SAMI CHOCHAN

AI ENGINEER / DATA SCIENCE ENTHUSIAST

PROFILE

Motivated AI Engineering student with hands-on experience in Machine Learning, Deep Learning, Data Analysis, Generative AI, and LLM-based applications. Skilled in building real-world AI projects including RAG chatbots, MLOps pipelines, sentiment analysis systems, and predictive machine learning models. Passionate about developing intelligent applications and continuously learning modern AI technologies.

PROJECTS

1. AI Document Assistant (RAG Chatbot)
LLM-powered chatbot for document-based question answering.
2. Resume Screening & Hiring Prediction
End-to-end ML and MLOps pipeline for candidate evaluation.
3. Named Entity Recognition System
NLP application for extracting entities from text.
4. Sentiment Analysis (IMDb Dataset)
ML model for movie review sentiment classification.
5. House Price Prediction System
Regression model for predicting property prices.
6. Stroke Prediction Analysis
Machine learning project using healthcare data.
7. Stroke Prediction App Using ANN
Deep learning application using Artificial Neural Networks.
8. Student Management System
Python-based system for managing student records.
9. Superstore Data Analysis
Data analysis and visualization using business datasets.
10. AI Chatbot Projects (Ongoing)
Developing conversational AI and LLM-based applications.

CERTIFICATIONS:

Cisco – Artificial Intelligence
Course Certificate

EDUCATION

INTERMEDIATE (COMPUTER SCIENCE) -
CURRENTLY STUDYING

MATRICULATION :
(COMPUTER SCIENCE)

GENIUS PUBLIC SCHOOL,
KARACHI, PAKISTAN

TECHNICAL SKILLS

- Python
- Machine Learning
- Deep Learning
- Generative AI
- LLMs & RAG
- Agentic AI
- Big Data & Cloud
- Statistics
- NLP
- FastAPI
- Data Analysis
- Data Analyst
- Pandas & NumPy
- Data Visualization
- MLOps
- Problem Solving

LANGUAGES

- Urdu – Native
- English – Basic

Working Proficiency
